PROJECT MANAGEMENT PROFESSIONAL (PMP)

DID YOU KNOW?

More employers are requiring their project managers to be certified (PMP®). Research indicates that employers will need to fill nearly 2.2 million new project-oriented roles each year through 2027.

PMP® certification provides credibility, enhances opportunities, and proves you have what it takes to deliver a project on time and in budget and scope.

Among all countries, the median salary for project managers with a PMP® is 25% higher than those without.

- 1 Obtain a basic understanding of project management vocabulary and skills by starting with our free Project Management Primer training.
- 2 Learn some project management foundational knowledge and skills in our Project Management Foundations training.
- 3 Learn basic agile principles in our Introduction to Agile training. This is especially important if you are new to agile - 50% of the PMP exam questions are agile.
- 4 Sign up for our five-day **PMP®/CAPM® Exam Preparation** training. This course uses the approved PMI® Authorized Training Partner curriculum as well as provides test taking strategies, tips and tricks for passing the PMP exam, and application assistance. This training satisfies the required 35 hours of formal project management education required to sit for the exam. The course includes:
